Winter-DXpedition - Pearsall, TX Jan 2-7 2014

# The 3rd Annual Winter Grid DXpedition

## A GRID BANDITS DXPEDITION

This year, the K5N Grid Activation Group went to EL08 just north of Pearsall, TX. We set up at the Gracey Ranch, courtesy of George-NR5M. Bill-N5YA and Marshall-K5QE drove down to the site on Jan 2nd and were joined by George-NR5M and Dan-N5TM. John-W0UN joined us on Sat. We immediately set up the station and were on the air late on Jan 2nd. Our first contact was Danny-N5OMG a frequent member of our group. We continued until 9AM on Jan 7th, at which point we tore down the station and began the drive home.

We made 142 6M QSOs during this trip and 18 on 2M. Conditions were poor this time. We had essentially no Es this trip so we ran a lot of FSK441 meteors. We want to thank Dan-N5TM for the chat room that he created for us, Joey-W5TFW who is our QSL Manager, and JD-N0IRS for our logo and webmaster work.
